## **EXAMINER'S AMENDMENT/COMMENT**

### **Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the indication of the allowability of claims 1-5, 7-15, 24-26, 39, 43-45 is the inclusion therein of the limitations of a moveable container having a reservoir for treatment fluid and porous material blocks disposed therein. These limitations are neither suggested nor taught by the prior art of record, alone or in combination as claimed.

The primary reason for the indication of the allowability of claims 16-17, 27-31, 40 is the inclusion therein of the limitations of an applicator pump having a fluid outlet in the cap for applying a predetermined quantity of fluid to the printhead. These limitations are neither suggested nor taught by the prior art of record, alone or in combination as claimed.

The primary reason for the indication of the allowability of claims 18-23, 41, 42 is the inclusion therein of the limitations of a layer of porous elastomeric foam containing a quantity of treatment fluid disposed between first and second impervious elastomeric layers. These limitations are neither suggested nor taught by the prior art of record, alone or in combination as claimed.

Applicant's arguments with regarding to the rejection based upon the defective reissue as being an improper recapture rule and the objection because of informalities is persuasive. Also, the corrected declaration has been received. Therefore, the rejection in the previous office action is herein withdrawn.
